California Food Handler Card Law

On July 1, 2011, the new California Food Handler Card Law went into effect. All dishwashers, servers, cooks, bartenders, and others that handle or prepare food or beverages must obtain a CA Food Handler Card. Before you pay for a course or exam from another provider, make sure the program certificate issuer is ANSI Accredited. If you possess a Certified Food Safety Manager Certificate, you do not need a Food Handler Card.

Our food handler program is an ANSI Accredited Program and there is a 100% money back guarantee of the purchase price if returned within 30 days of enrollment and if no more than lesson one has been studied. The course and examination takes approximately 1.5 – 2.0 hours to complete and upon successful completion you will be able to print a certificate and card. This card is good for three years in CA. The course and the exam are available in English and Spanish.
